

# UniBoard: A Centralized Digital Noticeboard for Campus Clubs and Events

## Feature List -

1. Advanced Event Search & Filtering – Students can easily find events by applying filters like club name, event type, date, or location.
2. Club Management Dashboard – Verified clubs can create, edit, and publish notices or events from their own dedicated dashboard.
3. Real-Time Notifications – Students receive instant push or email alerts for new or updated events from clubs they follow.
4. Personalized Event Feed – Each student sees a tailored list of events based on their interests and followed clubs.
5. Event Reminder System – Students can get automated reminders before they start.
6. Poster & Media Uploads – Clubs can attach images, posters, or flyers to make their event posts more engaging.
7. Engagement Analytics – Clubs can view insights like event reach, attendance count, and user engagement trends.
8. University Login Integration – Secure access for students and clubs using official university credentials.
9. Calendar Sync – Events can be added directly to a student's personal calendar for better time management.
10. Mobile-Friendly Interface – Fully responsive design ensures smooth access from any device.
