

UniBoard: A Centralized Digital Noticeboard for Campus Clubs and Events

Feature List -

1. **Advanced Event Search & Filtering** – Students can easily find events by applying filters like club name, event type, date, or location. (Siam)
2. **Event Scheduling System** - Verified clubs can schedule, modify, and launch time-bound gatherings with specific venues and dates via a calendar interface. (Imtiaz)
3. **Digital Notice Board** - Club administrators can draft, edit, and broadcast informational announcements and news updates directly to the community feed. (Imtiaz)
4. **Real-Time Notifications** – Students receive instant push or email alerts for new or updated events from clubs they follow. (Siam)
5. **Personalized Event Feed** – Each student sees a tailored list of events based on their interests and followed clubs. (Siam)
6. **Poster & Media Uploads** – Clubs can attach images, posters, or flyers to make their event posts more engaging. (Imtiaz)
7. **Engagement Analytics** – Clubs can view insights like event reach, attendance count, and user engagement trends. (Siam)
8. **University Login Integration** – Secure access for students and clubs using official university credentials. (Imtiaz)
9. **Admin Control Panel** – Project administrators can review and approve club applications, verify/unverify clubs, assign or remove admin roles, manage user accounts, and oversee all platform activities. (Imtiaz)
10. **Mobile-Friendly Interface** – Fully responsive design ensures smooth access from any device. (Siam & Imtiaz)
